File Type: swf Title: Date: 2007-10-07 17:07:38 UTC Author: NitroZX Post by: NitroZX Download link: System: unknown From the above link, I'm trying to download the uncensored version of the "robouzou" game. However, the download site only provides the Japanese version, not the English one. It's also not that uncensored, only uncensored in front of eyes, but not so much in rear. Why can't I get the English version? By the way, the game is translated in other languages. For example, the "Imoutoto" series, and of course, "RoboZou". A: For your final question, I couldn't find the English version anywhere online (as of the time of writing this), but I did find a few other versions of the game! As I mentioned, there are two versions, one for front and one for rear. They are in terms of the region setting on your computer. The front version has English, the rear has Japanese. Original version: English version: I don't think any of these have the sound disabled, so there should be no problems playing the game. More info: The RoboZou series: A series of whacky little games featuring a robotic boy and his girlfriends. The Imoutoto series: The longest running and most successful of RoboZou's many incarnations. The Imoutoto series is something of a love letter to the fans, a goodbye to the past and a firm commitment to the future. "Christ, what a mess." "Will you stop talking like an imbecile?" "Your foot is perfectly fine." "If I was to hit you... it's because I'd like to do much more than that." "I've been looking at you for the past 20 years." "And you, all this time, you've been expecting me to apologize?" "No." "I've been expecting you to admit it." "You're a crazy lady!" "I'm not crazy." "I 4bc0debe42
