System Requirements For Apollo Audio Data Burner:

Install Location: Game files (folder): Roms: Install Notes: If you have any issues with the install instructions, please post in the thread. IMPORTANT!: Do not over clock your CPU! This version of the game supports overclocking so if you use a GPU that supports it, you can use your CPU for mining or stuff like that instead of your GPU. If you use a GPU that doesn't support overclocking, you can use your CPU instead. For those of you that can't get your head around
