A: What do you mean by "the solutions"? Most of the solutions you provided have nothing to do with the problem you posted. You are still suffering from same issue as the other question. Do you get any audio after the plugin completes? Here's what you need to do: Use either a video you've recorded with the recorder to confirm that the audio is captured and recorded, or download this one by madmax. or Record your own "test signal 4bc0debe42
